

## PREPARING FOR UTILIZATION OF FULL MAN POWER

At a meeting of the Carter County Council of Defense yesterday afternoon the following resolution, relative to carrying out the new order of Major General Crowder to take effect July 1, whereby the full man power shall be utilized and put to work to offset Hun power was adopted:

Business men of all classes, together with their male clerks, must begin now to comply with the new order so that as little inconvenience as possible may be occasioned either the business men or their employees, to the end that wherever male clerks are used whose places can be filled by women that arrangements be made to this effect.

Be it further resolved, that any and all persons not now actually engaged in legitimate callings, helpful to the winning of the war be and are hereby directed to call upon the chairman of the local labor draft board who will furnish employment for such persons. In other words, the time has come when, in truth and in fact, every able-bodied man must either work or fight, it being determined by the government that in this crisis there is no room for the loafer.

Be it further resolved that a copy of these resolutions be published in The Daily Ardmoreite.

### Labor Committee Organizes.

The farm labor committee of the Council of Defense has organized and is actively at work, and public headquarters will be opened at the War Savings Bank.

The government's plan provides for the enrollment of every male citizen of the United States between the ages of 15 and 60, and it is proposed to have every man of such age give not less than two weeks of his time to work on the farms at the ordinary wages paid for other labor of like kind and quality.

As every one knows the next six weeks is the critical time, and all crops that are not properly attended at this time will be inferior. Carter county should do its utmost and do it now. Pledge cards can be found at the War Savings bank and the committee wants and needs a large number of men to take the place of the farmer boys who will leave Carter county for the army Saturday of this week and Saturday of next week, and it urges every man in Carter county who has the interest of the government at heart to go to the War Savings Bank and volunteer for two weeks' service on the farm.

The committee will endeavor to supply a man to take the place of every farmer that has gone from Carter county to the army and then it will endeavor to supply farm labor to every farmer in Carter county that needs such labor and requests that farmers who need help make application for such help at once by filling blank application at the War Savings Bank or by writing a letter to the farm labor committee, care of the War Savings Bank.

**70 High School Boys Sign.**  
More than 70 high school boys signed the farm labor pledge cards presented them this morning by Superintendent Richards. Other pledges were made during the day and it is expected that the total enrollment of high school boys will result.

A review of the year's activities in war work gives the report that every child in the public schools is a member of the Junior Red Cross. There are 45 thrift societies with an approximate membership of 2,300. The total amount of thrift stamps purchased up to May 14 is \$18,721.55. There are 2,100 war gardens registered.

### MR. SCHWAB'S TACT.

Philadelphia Ledger: "Competitive interest." Mr. Schwab once said, "It is needed to give men an interest in their work. There was one mill when I was with the Carnegie company that was away below the others in number of heats recorded a day."

"I took the matter up with the superintendent. He could not tell why. So far as he could see he ran his mill the same as other superintendents ran theirs."

"He coaxed his men, or cursed them, or pleaded with them, but with no result."

"It was at the end of the day, and the night shift was just coming on. I had an idea. Borrowing a piece of chalk, I asked the man how many heats the day force had made. He said six. I chalked a large six on the floor and went away."

"Next morning, passing the same mill, I noticed the six had been rubbed out, and a seven written in its place."

"The next day the seven was gone and a ten loomed large. The rivalry was started, an interest awakened, and before the end of the month that mill was near the head of the list, and every man working in it proud of the honor."

## Markets

### Holiday in Liverpool.

Liverpool, May 24.—Today is a holiday on the cotton exchange here.

### LIVESTOCK.

Kansas City, Mo., May 24.—Hogs: Receipts 6,000; market steady to 5c lower. Bulk \$17.05@17.15; heavy, \$17@17.15; light, \$16.10@17.25; pigs, \$17@17.50.

Cattle: Receipts 1,000; market steady. Prime fed steers, \$16.90@17.40; dressed beef steers, \$13@16.75; southern steers, \$11@14.50; cows, \$8.25@14; heifers, \$9.50@15; stocks, \$9.75@15.75; calves, \$8.50@13. Sheep: Receipts 2,000; market 1525c higher. Lambs, \$15.50@19.00; yearlings, \$14@17; wethers, \$13@16.50; ewes, \$11.50@15; stockers, \$7@17.

### GRAIN.

Chicago, May 24.—Heavy rains that threatened to interfere with planting put the bears in corn today at a disadvantage. Opening prices, which ranged from 1-8c off to 1-4c advance, with June \$1.37 1-2 and July \$1.39 3-4@1.40 1-4, were followed by a moderate reaction, and then a fresh advance.

Oats merely paralleled the action of corn. After opening unchanged to 5-8c lower, with July 66@66 1-8c, the market hardened all round.

Provisions weakened in line with the hog market.

### PRODUCE.

Kansas City, Mo., May 24.—Butter and Poultry: Unchanged. Eggs: Firsts, 30c; seconds, 26c. Potatoes: Steady; old \$1.00@1.15; new, \$1.60.

### COTTON.

New Orleans, May 24.—Covering by shorts created a fairly brisk demand in the cotton market today and caused a rise of 29 to 41 points in the first half hour of business in the face of favorable weather conditions over the belt.

July became very strong on the covering by shorts and led the list to higher levels. At 1 o'clock the market stood 41 to 91 points up net. New Orleans, May 24.—Reports of a much better spot demand at Texas points increased the pressure to buy contracts. At noon prices were 34 to 78 points up net.

### TALES OF U. S. TOWNS.

Charleston, R. I., has invested \$5,000, its balance on hand as the result of living within its income, in Liberty bonds.

Great Falls, Mont., its male white wings having gone on a strike, is hiring women to clean the streets, paying them \$3.75 a day.

Los Angeles went "dry" on March 31 and 175 saloons from which the city received a revenue of \$420,000 annually closed their doors.

Boston, for the first time in its history, has inaugurated the budget system of municipal finance. The budget for the municipal year carries \$27,066,774.

New York is sobering up. Reckoned on the basis of records for the first quarter of 1918, public intoxication in the city will show a decrease of 50 per cent this year.

Sioux City notes with moderate glee that the county jail feeding bill tumbled down to \$178 for April, the lowest monthly bill in 15 years. This is one instance of diminished business that merits general applause throughout.

Minneapolis, in spite of the popularity of apartment houses as a labor saving shelter, sticks to the detached home by a large majority. Permits issued during the last eight-year period show 16,075 single dwellings, 1,003 duplex buildings and 997 apartment houses.

New Orleans is going to throw off its cloak of modesty and tell the world what it really possesses. The old spirit of self-satisfaction—"Why everybody knows all about New Orleans!"—is to be thrown into the discard, and \$200,000 is to be spent in the greatest advertising campaign undertaken by the city to let the world know of its resources.

Life: Kitty—What do you suppose that hen is eating those tacks for?

Tommy—Perhaps she's going to lay a carpet.

Exactly the Opposite. Cartoons Magazine: Hodge—Going for an outing?

Podge (hurrying to a ball game)—No, for an inning.

### Enduring.

Boston Transcript: "Did any of your ancestors do anything to cause posterity to remember them?" asked the haughty woman.

"I reckon they did," replied the old farmer. "My grandfather put a mortgage on this place that ain't paid off yet."

### Consoling.

Boston Transcript: Bobby—Grandpa, why do you look so sad? Grandpa—Ah, my lad, I was just thinking, here I am seventy years of age and I have done nothing that is likely to make posterity remember me—nothing.

Bobby—Oh, well, don't worry, grandpa. Maybe you'll still have a chance to live in history as somebody's grandfather.

## Texas Cows Enjoy Diet Of U.S. Army Airplane Wings

Dallas, Texas, May 24.—Discovery that Texas cattle will eat the wings of an airplane if the machine is left unguarded is one of the reasons why a general order to "stick with the machine, no matter what happens," is impressed upon every cadet aviator training in Texas. The cadets are instructed particularly never to leave their "ships" in fields, no matter how far from the traveled road.

The fact that cows have an appetite for airplanes was discovered only after one or two machines had suffered real loss from discriminating Texas cattle.

The wide, supporting planes are covered with a cellulose preparation that makes them air tight, known in the technique of flying as "dope," and "dope" makes as tasty a meal for cows as the bovines have discovered for a long time. It softens under their tongues and the cattle in their eagerness to obtain it, will chew the expensive linen planes to pieces to extract the last particle of "dope" flavor.

Another reason for the order is that an airplane is a valuable piece of property with many detachable parts offering an attractive invitation to looters if one were left unprotected in a lonely field or on a road.

Souvenir hunters, however, are much more feared than thieves. Aviators who have made forced landings while on cross-country flights say it requires their utmost vigilance to keep curious spectators from breaking up their "ships" and carrying them away piecemeal, so eager are the country people for souvenirs.

An aviator landed recently in a wheat field not far from here. The curiosity and interest in him was so

### Just Misses It.

Louisville Courier-Journal: "I seldom see Flubdub pay for the lunch. Is he a tightwad?" "I'll have to give him the benefit of the doubt. He always reaches for the check as if he meant it. But he has a good eye for distance, all right."

### He Kept Going.

Washington Star: "Is that new member a good talker?" "Well," replied Senator Sorghum.

"he's a wonder for endurance. But he doesn't class up very well for speed."

### ON SCRUB TEAM.

Louisville Courier-Journal: "My daughter is taking a course in domestic science." "How is she making out?" "All right, I guess. She writes that she just made the scrub team."

United States census bureau estimates the average death for males is 39.2 years, for females, 40.6.

### TALES OF FOREIGN TOWNS

Nanking, China, now has a university for women.

Madras, India, now has a medical school for women.

Lima, Peru, plans for an adequate water and drainage system and for paving.

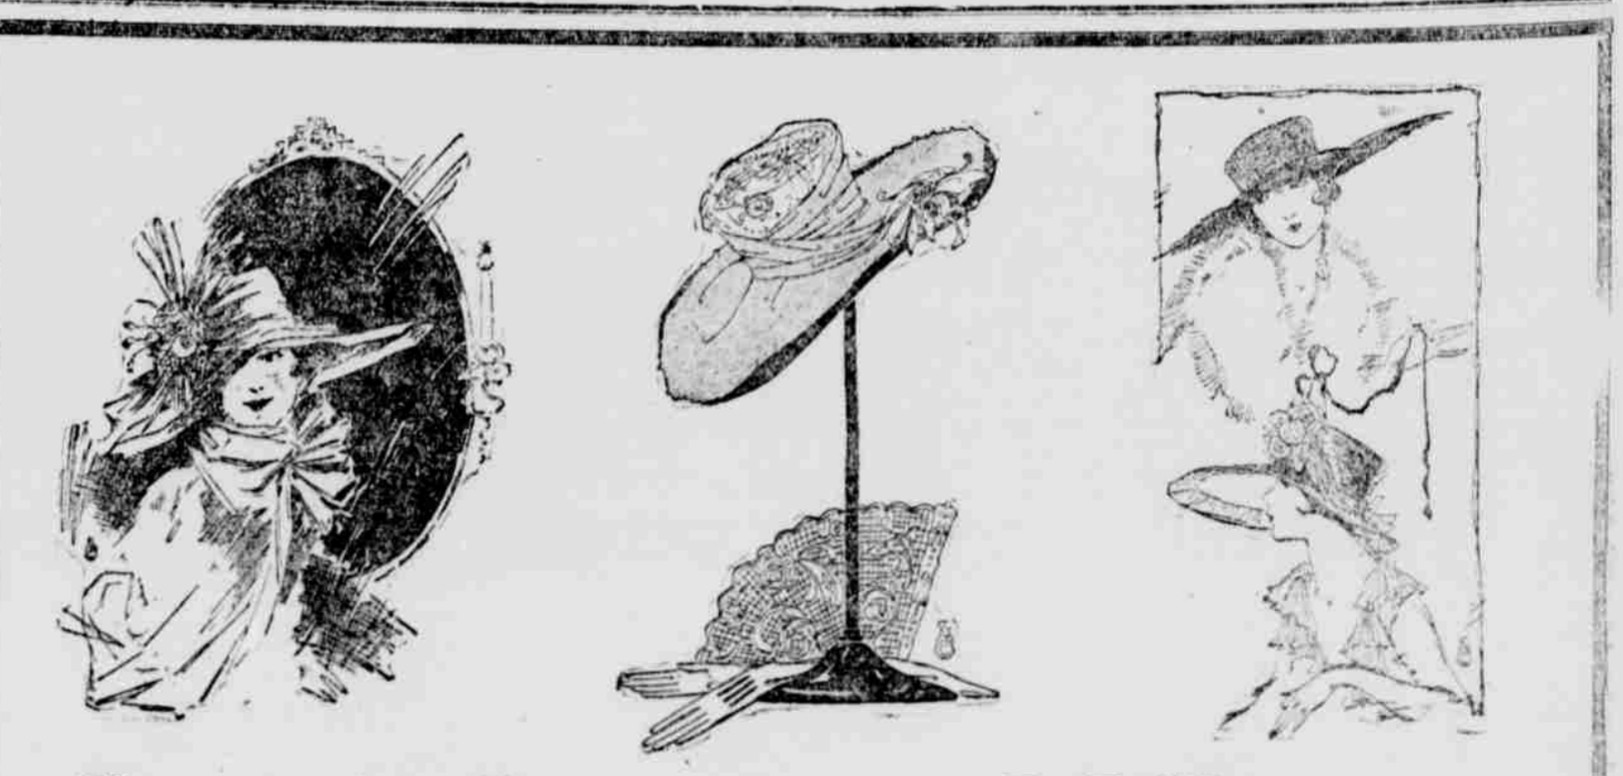

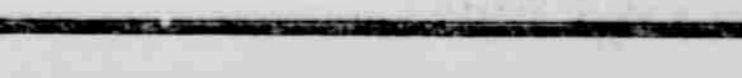

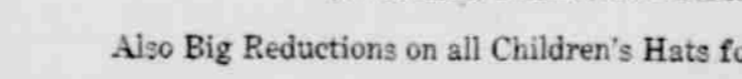

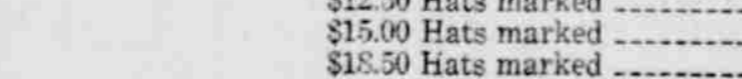

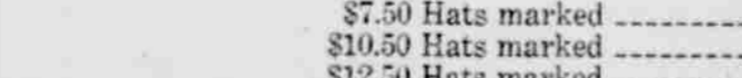

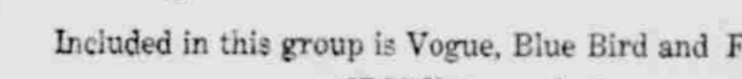

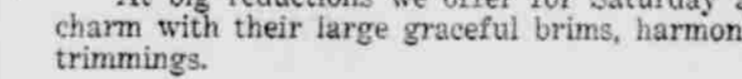

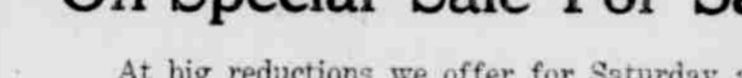

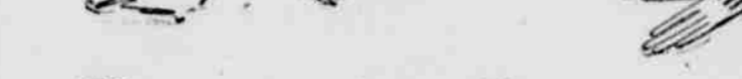

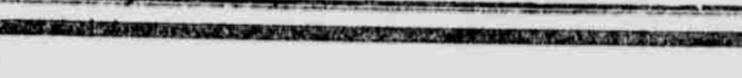

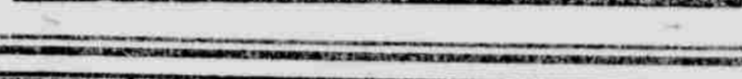

Bangkok, the capital, is the only city in Siam with a telephone exchange, although the government owns and operates the telephone service.

Cherapunji, in Assam, India, is the wettest town in the world. Its average rainfall is 600 inches or 50 feet a year, which is nearly a foot a week.

Vladivostok is the chief town of East Siberia and has been the most important seat of Russian influence in the Far East. The chief value of the place lies in its excellent harbor.

Jerusalem lost two-thirds of its Jewish population by exile, typhus and starvation during the days when the city was awaiting deliverance at the hands of the British under General Allenby.
